

Abhishek Lakhani

Applied AI Engineer(NLP & LLM Systems)

✉ lakhaniabhi.it@gmail.com ☎ +49 176 5797 2691 📍 Germany 🌐 LinkedIn 🐙 GitHub

PROFESSIONAL EXPERIENCE

Technische Universität Chemnitz, *Machine Learning Intern* 06/2025 – 01/2026 | Chemnitz, Germany

- Designed a privacy-focused image classification pipeline in TensorFlow, running federated learning experiments across decentralized Solid POD data sources
- Set up modular Python components (structured logging, custom exceptions, CSV-based result tracking) to support reproducible experiment tracking

Wokontech IT Solution, *Software Development Intern* 10/2021 – 03/2022 | Surat, India

- Built and trained object detection pipelines on 5K+ images, improving robustness through data curation.
- Evaluated models using standard metrics and managed annotation workflows with CVAT.

White Orange Software, *Backend Development Intern* 12/2020 – 05/2021 | Surat, India

- Built and maintained backend features in Core PHP, tuning MySQL queries to improve application performance
- Handled code reviews and documentation with a multidisciplinary team

EDUCATION

Technische Universität Chemnitz 04/2022 – Present | Chemnitz, Germany

Master's in Automotive Software Engineering

Available for full-time roles, working student positions, internships & thesis opportunities | No visa sponsorship required

Gujarat Technological University 08/2017 – 07/2021 | Gujarat, India

B.E. in Computer Science Engineering

SKILLS

Languages (Python | SQL | Javascript) | **NLP & AI** (LLMs | Prompt Engineering | LangChain | RAG | Text Classification | TF-IDF) | **ML** (PyTorch | Scikit-learn) | **Backend & APIs** (FastAPI | Flask | Node.js | REST APIs) | **MLOps & Deployment** (Docker | ONNX Runtime | Inference Optimization) | **Cloud** (Microsoft Azure | GCP | AWS) | **Automation** (n8n)

PROJECTS

LinkedIn Post Generation

- Built an NLP system using LLMs and LangChain with structured prompting, improving content generation speed by ~40%.

LANGUAGES

German

English
